SAFETY DATA SHEET

1. Identification

Product Identifier

Product name PLATE CLEANER

Recommended use of the chemical and restrictions on use

Application For use as a plate cleaner in the lithographic printing industry. Plate cleaner.

Uses advised against No specific uses advised against are identified. Cannot be used in the EU because the product contains nonyl phenol ethoxylates.

Details of the supplier of the safety data sheet

Supplier Recognition Systems, Inc.

Human health

Prolonged or repeated exposure to vapors in high concentrations may cause the following adverse effects: Dizziness. Fatigue. Product has a defatting effect on skin. The liquid is irritating to eyes and skin. May cause damage to organs (Kidneys, Liver, Central nervous system) through prolonged or repeated exposure.

Environmental

The product contains a substance which is toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.

Physicochemical

Heating will generate vapours which may form explosive vapour/air mixtures.

Signal word: Warning

Hazard statements:
- H315 Causes skin irritation.
- H226 Flammable liquid and vapor.
- H336 May cause drowsiness or dizziness.
- H319 Causes serious eye irritation.
- H373 May cause damage to organs through prolonged or repeated exposure.

Precautionary statements:
- P210 Keep away from heat, sparks, open flames and hot surfaces. No smoking.
- P260 Do not breathe vapor/spray.
- P280 Wear protective gloves/protective clothing/eye protection/face protection.
- P314 Get medical advice/attention if you feel unwell.
- P337+P313 If eye irritation persists: Get medical advice/attention.
- P501 Dispose of contents/container in accordance with national regulations.

Contains:
- SOLVENT NAPHTHA (PETROLEUM), MEDIUM ALIPH.; STRAIGHT RUN KEROSINE, XYLENE

Other hazards:
This product does not contain any substances classified as PBT or vPvB.

#### 4. First-aid measures

**Description of first aid measures**
**Inhalation**
Move affected person to fresh air at once. For breathing difficulties, oxygen may be necessary. If breathing stops, provide artificial respiration. Keep affected person warm and at rest. Get medical attention immediately.

**Ingestion**
Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Remove affected person from source of contamination. Rinse mouth thoroughly with water. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention immediately.

**Skin Contact**
Remove affected person from source of contamination. Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if symptoms are severe or persist after washing.

**Eye contact**
Remove any contact lenses and open eyelids wide apart. Rinse immediately with plenty of water. Continue to rinse for at least 15 minutes. Get medical attention if symptoms are severe or persist after washing.

**Most important symptoms and effects, both acute and delayed**

**General information**
May cause damage to organs (Central nervous system, Kidneys, Liver) through prolonged or repeated exposure.

**Inhalation**
Upper respiratory irritation. Drowsiness, dizziness, disorientation, vertigo.

**Ingestion**
May cause discomfort if swallowed.

**Skin contact**
Prolonged contact may cause redness, irritation and dry skin. Irritating.

**Eye contact**
Prolonged contact may cause redness and/or tearing. Irritating.

**Indication of immediate medical attention and special treatment needed**

**Notes for the doctor**
No specific recommendations.

### 5. Fire-fighting measures

#### Extinguishing media

**Suitable extinguishing media**
Extinguish with the following media: Carbon dioxide (CO2). Alcohol-resistant foam. Dry chemicals, sand, dolomite etc.

**Unsuitable extinguishing media**
Do not use water, if avoidable.

**Special hazards arising from the substance or mixture**

**Specific hazards**
The product is flammable. Heating may generate flammable vapors.

**Hazardous combustion products**
Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours. Oxides of carbon. Oxides of nitrogen. Hydrocarbons.

**Advice for firefighters**

**Protective actions during firefighting**
Avoid breathing fire gases or vapors. Containers close to fire should be removed or cooled with water. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.

**Special protective equipment for firefighters**
Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

### 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

**Personal precautions**
Wear protective clothing as described in Section 8 of this safety data sheet.
Environmental precautions
Do not discharge into drains or watercourses or onto the ground.

Methods and material for containment and cleaning up
Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Avoid contact with skin or inhalation of spillage, dust or vapour. Absorb in vermiculite, dry sand or earth and place into containers.

Reference to other sections
For waste disposal, see Section 13.

7. Handling and storage

Precautions for safe handling
Keep away from heat, sparks and open flame. Avoid spilling. Avoid contact with skin and eyes. Provide adequate ventilation. Avoid inhalation of vapors. Use approved respirator if air contamination is above an acceptable level.

Conditions for safe storage, including any incompatibilities
Keep away from oxidizing materials, heat and flames. Store in tightly-closed, original container in a dry, cool and well-ventilated place.

Specific end uses(s)
The identified uses for this product are detailed in Section 1.2.

Hygiene measures
Wash hands at the end of each work shift and before eating, smoking and using the toilet. Wash promptly with soap and water if skin becomes contaminated. Promptly remove any clothing that becomes contaminated. Use appropriate skin cream to prevent drying of skin. When using do not eat, drink or smoke. Do not smoke in work area.

Respiratory protection
No specific recommendations. Respiratory protection may be required if excessive airborne contamination occurs. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.

Contains Xylene. May cause damage to organs (Central nervous system, Kidneys, Liver) through prolonged or repeated exposure.
Target organs
- Central nervous system
- Liver
- Kidneys

Aspiration hazard
Not anticipated to present an aspiration hazard, based on chemical structure.

General information
May cause damage to organs through prolonged or repeated exposure.

Inhalation
May cause respiratory system irritation. The product contains organic solvents. Overexposure may depress the central nervous system, causing dizziness and intoxication.

Ingestion
May cause discomfort if swallowed.

Skin Contact
Irritating. Contains components which may penetrate the skin. Repeated exposure may cause skin dryness or cracking.

Eye contact
Irritating to eyes.

Route of entry
Skin and/or eye contact

Persistence and degradability
Persistence and degradability
There are no data on the degradability of this product. The product contains nonylphenol ethoxylate which can be transformed into persistent (not readily degradable) nonylphenols when degraded. Only for use outside the EU - The surfactants contained in this preparation do not meet the criteria for Ultimate Biodegradability and therefore the product does not comply with the Detergents Regulation (EC) No 648/2004.

Bioaccumulative potential
Bio-Accumulative Potential No data available on bioaccumulation.
Partition coefficient No information available.

Ecological information on ingredients

SOLVENT NAPTHA (PETROLEUM), LIGHT AROM.; LOW BOILING POINT NAPHTHA

Partition coefficient log Pow: 3.42

Mobility in soil
Mobility The product contains volatile organic compounds (VOCs) which will evaporate easily from all surfaces. The product is miscible with water and may spread in water systems.

Results of PBT and vPvB assessment
Results of PBT and vPvB assessment This product does not contain any substances classified as PBT or vPvB.

Other adverse effects
Other adverse effects Not known.

13. Disposal considerations
Waste treatment methods
General information When handling waste, the safety precautions applying to handling of the product should be considered. Materials such as cleaning rags and paper wipes that are contaminated with flammable liquids may self-ignite after use and should be stored in designated fireproof containers with tight-fitting, self-closing lids.

Disposal methods Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
